

PVH and MCR  
FOUNDATION

For over a decade, the PVH and MCR Foundation scholarship program has helped dedicated and high-performing employees further their knowledge and build capacity for leadership. By matching donors' passion for education with individual staff needs, a total of over 400 scholarships and over \$400,000 in community and employee support has helped promote academic excellence and retain a high caliber workforce, which ultimately translates into a world-class patient experience. This year, we continue the tradition by extending financial support to 33 employees with over \$38,000 in awards to help employees achieve their academic and professional development goals.
